Shariq Shahid

FULL STACK DEVELOPER | REACT.JS | NEXT.JS | REACT NATIVE | NODE.JS | EXPRESS | MONGODB

+923343279940 | shariqshahid905@gmail.com | Github | LinkedIn | Stack Overflow

-- PROFESSIONAL SUMMARY --

Full Stack Engineer with 7+ years of experience building scalable, high-performance web and mobile applications. Skilled in both front-end (React, Next.js, TypeScript) and backend (Node.js, Express, MongoDB) development, with a strong focus on clean code, responsive design, and smooth user experiences.

-- AREA OF EXPERTISE --

Frontend: HTML(5), CSS(3), JavaScript, TypeScript, jQuery, React.js, Next.js, React Native, Redux
Backend: Node.js, Express, MongoDB, MySQL
Mobile App: React Native, Unity
UI/UX Design: Adobe Illustrator, Adobe Photoshop,
Version Ctrl: Git, GitHub, GitLab, Bitbucket
Tools: VS Code, Postman, npm, yarn

-- PROFESSIONAL EXPERIENCE --

Full Stack Developer

Sleekhive Technologies Pvt Ltd   May-2021 – Present

- Developed and deployed over 100 responsive web applications using **React.js** and **Next.js**, improving user engagement and reducing average page load time by up to **30%** through performance best practices.
- Developed 5+ production-level mobile apps using **React Native**, leading to over **10,000 downloads** and increasing user retention by **25%** year-over-year.
- Optimized backend services using **Node.js** and **Express**, cutting average server response times by **50%** and supporting a growing database of 1,000+ users with 99.9% uptime.
- Implemented efficient RESTful APIs and integrated MongoDB for scalable data storage, ensuring secure and reliable access to user and app data.
- Collaborated closely with **UI/UX** teams to translate design specs into fully functional components, enhancing frontend usability and consistency.
- Resolved complex frontend bugs and performance issues across browsers and devices, improving the stability and reliability of client-facing features.
- Led or contributed to 30+ agile sprints and code reviews, helping reduce release bugs by 40% and accelerate feature delivery.
- Advised client-facing teams with quick-turnaround technical fixes, improving end-user satisfaction and reducing support tickets by 20%.

Frontend Developer (React.js / Next.js)

ACE Digitals Pvt Ltd   Apr-2019 – Apr 2021

- Developed and maintained responsive web applications using **HTML5, CSS3, JavaScript, React.js**, **Next.js**, **JavaScript**, and **jQuery**, enhancing user experience across multiple client projects.
- Built **20+** reusable UI components using React and Next.js, reducing feature development time by **30%**.
- Improved frontend performance through code splitting, lazy loading, and asset optimization in **Next.js**, resulting in faster page loads and better SEO.
- Converted design prototypes from tools like **Figma** and **Adobe XD** into pixel-perfect web pages aligned with client branding and UX standards.

Frontend Website Developer

Symblink Technologies   Feb-2018 – Nov 2018

- Built responsive websites using **HTML5, CSS3, JavaScript**, **jQuery**, and **Bootstrap**, ensuring cross-browser compatibility and mobile-first design.
- Converted static designs and mockups into interactive, user-friendly web pages.
- Enhanced site layout, styling, and accessibility based on real-time feedback and usability testing.
- Partnered with senior developers to debug layout issues and streamline UI consistency across projects.

-- EDUCATION --

B.E. in Electronic Engineering

Sir Syed University of Engineering & Technology   Jan 2015 – Dec 2018

Relevant Coursework: Robitics, Matlab

Final Year Project:

Designed and developed a **smart shopping cart system** that follows users using sensor-based motion tracking and integrates with a barcode scanner to automatically add items to their **digital e-commerce cart**. Combined embedded systems with software integration to enhance in-store shopping experiences.

-- SKILLS --

- o Responsive Web Design
- o Cross-Browser Compatibility
- o API Integration (RESTful / 3rd-party APIs)
- o Version Control (Git)
- o Agile Development
- o Frontend Optimization
- o Backend API Development

- o Code Review
- o State Management (Redux / Context API)
- o Pixel-Perfect Implementation
- o Figma to Code
- o Debugging & Troubleshooting
- o Problem Solving
- o Performance Optimization

-- PROJECTS --

LongLive   Jun 2024 – Jul 2024

Longlive is a comprehensive health and wellness platform designed for proactive individuals who prioritize their well-being. With a three-dimensional approach, Longlive empowers users to take charge of their mental, physical, and overall health—all in one seamless experience.

Vision 2 Eye   Apr 2024 - May 2024

Vision 2 Eye is a next-generation eCommerce platform revolutionizing the way people shop for eyewear. Our mission is to provide a seamless and interactive shopping experience by integrating cutting-edge virtual try-on technology.

Zaio.io   Mar 2024 - Apr 2024

Zaio.io is Africa's leading platform for coding education, empowering learners with top-rated programs designed to help them achieve their career goals. Whether you're a beginner or looking to upskill, Zaio.io provides industry-relevant training to kickstart or advance your journey in tech.

Shadowbey   Oct 2023 - Nov 2023

Shadowbey specializes in building engaging websites and apps for early-stage startups, transforming ideas into impactful digital experiences. By bridging the gap between user needs and business goals, Shadowbey ensures that every product is not only visually appealing but also intuitive and result-driven.

Sellerspry   Sep 2023 - Oct 2023

Sellerspry is a results-driven Amazon marketing agency dedicated to helping brands scale and succeed in the competitive eCommerce landscape. With a deep understanding of Amazon's ever-changing algorithms and marketplace dynamics, Sellerspry empowers businesses with data-driven strategies that drive visibility, conversions, and revenue growth.
